### Transport of Bell 206 RCS

1. If Helicopter Windows agree to deliver the Shell, an enclosed truck (such as a Pantech) must be hired or provided by the Customer.
2. If collecting the Shell, it is suggested that an enclosed truck (such as a Pantech) be used.
3. For domestic transport, if the Shell is not in a box, it is recommended that it be transported separately or at least separate from any other items which may damage it during transport.
4. Transparencies and detachable components/items are supplied EXW Freight Depot Warwick or EXW Factory (Killarney, Queensland).
